Digital Audio System with Wi-Fi
and Colour Touchscreen

sensia

Introducing Sensia

Sensia is a revolutionary internet-connected digital audio system with Flow technology and a large colour touchscreen, giving you a unique way to enjoy internet radio content and podcasts, DAB and FM radio stations, your own music collection via Wi-fi, online apps and unique broadcast material.

Using the touchscreen you can view and interact like never before: scrolling and spinning lists, tapping to select, sliding controls and swiping to change views.

Sensia also features PURE Clearsound™ technology for impressive stereo sound, a handy RF remote control and an input for your iPod/MP3 player. There's also an alarm, countdown and sleep timers, and a headphone socket.

Add an optional rechargeable PURE ChargePAK and you can listen to internet content anywhere within range of your Wi-Fi network or to DAB and FM radio when you're further afield.

Get connected

flow

Flow technology means that Sensia works with any Wi-Fi network, at home or out and about. Just switch it on – it'll find all available Wi-Fi networks and you'll be ready to access the vast range of internet radio stations, listen again programmes and podcasts available on the web, as well as PURE Sounds – unique soundscapes created by PURE to stimulate, inspire and relax.

And if you've got a computer or network storage device connected to your Wi-Fi network you can stream from it direct to your Sensia and enjoy listening to your music away from the computer.

Media streaming with album art

Full-screen display with controls

Easy-to-use touchscreen

Full-screen Twitter, Facebook, weather reports and more

Playing internet radio while showing the Twitter app

FM radio with up to ten favourites

Apps list while showing the weather app

Internet, DAB and FM radio

Enjoy a world of global, national and local radio

Experience a world of internet radio content – some familiar and some brand new or enjoy the wide range of DAB stations, many with station slideshows, as well as all your local FM favourites. Whatever you're passionate about, you'll find a station to match.

Listen again†

Hear your favourite shows when you want them

Missed an episode of your favourite radio programme? Imagine catching up with your favourite shows in the kitchen, the lounge, the garage, or anywhere you're in range of your wireless network. And there's absolutely no need for a PC! Radio on demand has never been this easy.

Podcasts

Discover thousands of programmes available anytime

Listen to highlights of your favourite comedy show, study a foreign language in ten episodes, listen to DIY tips, or play a bedtime story for the kids. There's an amazing variety of content and thousands of podcasts to discover. No PC or iPod required!

† Available from radio stations that have an online listen again/archive service, including most BBC stations.

Apps

View useful, informative or just-for-fun apps while you listen

Get the latest updates from Twitter or Facebook, view your online photos, get weather reports or breaking news headlines. A variety of apps are available now and the range is increasing. Displayed alongside whatever you're listening to or full-screen, apps bring an exciting new dimension to your radio listening.

Media streaming

Listen anywhere to all the music stored on your PC

Break free from the computer and listen to your digital music collection wirelessly. If you've got a computer or network storage device connected to your Wi-Fi network you can stream music and album art from it direct to your Sensia. And just like on your computer you can browse through albums and playlists, pause and seek within tracks.

PURE sounds

Sounds to stimulate, inspire and relax

Create an atmosphere to match your mood with a library of evocative sounds. From birdsong and a mother's heartbeat to cityscapes and rolling thunder, tune into PURE sounds to stimulate your imagination, help you concentrate or just find a space to relax.

Visit the *PURE Lounge*

Visit the PURE Lounge at www.thelounge.com and you can listen online, register your radio, and save and organize your favourites. You'll find:

Radio stations – thousands of global, national and local radio stations

Listen again† – your favourite shows when you want them

Podcasts – thousands of programmes available anytime

PURE Sounds – sounds to stimulate, inspire and relax

Powerful and simple to use search facilities will help you to find the content you want. Simply enter any combination of name, language, country, genre or quality and you'll be sure to find something worth listening to.

You can also find out what's new and get some recommendations for things you might like to listen to.

The PURE Lounge – Turn on. Tune in. Chill out

† Available from radio stations that have an online listen again/archive service, including most BBC stations.

Sensia Accessories

ChargePAK E1

This optional in-unit rechargeable battery pack can be fitted in seconds to provide true fit-and-forget portability. ChargePAK is more cost-effective and convenient than traditional alkaline batteries and avoids the need to dispose of batteries in landfill sites. Plug your Sensia into the mains and ChargePAK charges while you listen; unplug and you've got hours of portable listening.

i-10 iPod Dock

This powered universal iPod dock plugs straight in to your Sensia for headphone-free listening. i-10 charges your iPod while docked and comes with a handy remote control.
