PRODUCT DETAILS

Built for the Great Outdoors

Move T4 is made for those who get out and about. Designed to be highly compact and easy-to-hold, it's small enough to take on your travels and has an impact resistant tempered glass build to protect it from knocks or scratches. A built-in kickstand also means Move T4 can be propped up on any surface allowing for hands-free listening anywhere.

Sound You'll Love

With optimised sound for near-field listening, you'll hear every detail without distortion on the ultra-compact yet powerful 4W RMS speaker. Digital amplification and separate bass / treble controls allow you to adapt the sound to your listening requirements, producing class-leading clarity and volume.

With up to 15 hours of speaker playback, moving up to 22 hours if listening via the headphone socket, Move T4 is perfect for listening over extended periods of time wherever your music takes you.

Wireless Streaming

Convert Move T4 into a personal speaker by streaming via Bluetooth. Simply choose your favourite playlist, streaming service or internet radio station to play directly from your smart device without any need for wires.

User-friendly Interface

Navigating menus and viewing station information is a breeze Move T4's full colour 2" TFT screen. It's 20 station presets, with 4 quick access buttons, make it quick and easy to find the station you're looking for along with 2 alarms and a sleep timer to make it the ideal bedside companion.

Switch to Digital Radio

DAB digital radio brings you high-detail digital-quality sound, lots of stations (many exclusive to digital) and uses scrolling text to show you track titles, programme names and more. Digital radios automatically find all your available stations and let you select them by name, and all our digital radios also include FM for any stations that have not yet gone digital.

Move T4 is also Digital Tick approved so you can rest assured that you're ready for any future FM to digital radio switchover.

Designed and Engineered in the UK

Like all our products, Move T4 was designed and engineered in the UK by our expert engineering teams, ensuring great sound and impressive build quality.
