

Pop Mini, EU/UK

147487

Pop Mini is perfect for the most crowded bedside table or kitchen worktop. With its pop to play button and five dedicated preset buttons, listening to your favourite stations couldn't be simpler.

Colour

PRODUCT DETAILS

As the most affordable and portable member of our Pop family, Pop Mini is the perfect introduction to DAB digital radio. Measuring only 14cm high, 9cm wide and 10cm deep, Pop Mini is perfect for even the most crowded bedside table or kitchen worktop. Just like our other recent digital radios, Pop Mini is Digital Tick approved so you can rest assured that you're ready for any future FM to Digital Radio switchover. Features a highly visible clock, two alarms and DAB digital and FM radio. For portable listening, Pop Mini takes an optional eco-friendly ChargePAK D1 or the option to use regular AA alkaline batteries.

Form and function

Pop Mini's form was designed with function in mind – simply push down the big button on the top of the radio to switch Pop Mini on and turn to adjust the volume. Finding your favourite radio stations couldn't be more convenient with simple tuning controls. Our customers have told us that they regularly listen to around three radio stations, so we've included five dedicated preset buttons.

Looks good, sounds great

Pop Mini doesn't just look good. Like all our other Pure digital radio's, Pop Mini has been engineered and hand tuned by our audio experts in the UK to ensure the best possible sound.

Compact for portable listening

As the most compact member of the Pop family, Pop Mini is ideal for listening to your favourite radio show wherever you want, whether that's the kitchen, study or bedroom. With the option to fit a ChargePAK D1 rechargeable battery pack or regular AA alkaline batteries, you can also listen to your favourite radio station in the garden or take it with you on holiday.

Switch on to digital radio

DAB digital radio brings you high-detail digital-quality sound and lots of stations (many exclusive to digital). As well as more choice, the large clear displays on our DAB digital radios let you find out more about the station you are listening to, including the title of a playing track, the name of the radio show and much more. Digital radios automatically find all your available stations and let you select them by name, and there's also FM for any stations that have not yet gone digital.

What' in the box?

- Pop Mini
- Power supply
- Quickstart guide
- Safety information sheet
- Warranty card
